
ISO 9001:2015 Fundamentals and Practical Implementation Training and Certification

Course Overview

The 2.5 days 'ISO 9001:2015 Fundamentals & Practical Implementation' course is specially designed with a Learning Objective to provide fundamental knowledge and working understanding of QMS requirements of ISO 9001:2015 – Quality Management System Requirements.

You will be given all-inclusive knowledge of the ISO 9001:2015 standard requirements, with an intent to provide interpretation of all the clauses in the most simplified manner for establishing, documenting and implementing the effective QMS.

The program will be delivered using practical examples and hands-on group activities. Our course facilitators will ensure that after completion of the training workshop, participants will be able to establish, document and implement the most effective Quality Management System in their organizations.

Course Duration

Public or On-Site Training: 2.5 Days (20 Hours: 8 Hours for first two days, 4 hours on last day)

On-Line: 3 Days (7 Hours a Day)
